### **BnSellit Technology Inc. Provides Operating Update**

**Calgary, Alberta – January 21, 2022 – [BnSellit Technology Inc.](#)** (“BnSellit” or the “Corporation”) (CSE:BNSL) announced today an update on operating results for the last quarter of 2021 and forecast for January 2022.

The BnSellit Platform was formally launched in October 2021. During this period the emphasis has been on strengthening the internal team, onboarding new Hosts to the Platform and on distributing Marketplace kits to new Hosts. The Corporation has seen explosive growth in its key metrics of number of active Hosts, the number of transactions on the Platform, the gross value of the transactions and the average value of each transaction over the last four months as shown below:

Growth in each of these key metrics was higher than originally forecast with Hosts becoming active soon after they are onboarded and have their marketplace set up, early January has seen the number of transactions per day continue to increase even after the holiday period and the growth in the average transaction value is a reflection of our Hosts exploiting the potential of the Platform and the items they offer for sale.

‘Our Marketplace Starter kit program, launched in November 2021, provides hosts with a simple, hassle free opportunity to begin realizing the revenue potential available with each and every rental. In less than 3 months, the program has had a significant impact on our gross revenue, average sale and number of active hosts and we expect this trend to continue as more hosts take advantage of the program.’ Stated Tony Comparelli, CEO.
